Summary

Software Engineer with a strong foundation in .NET, C#, Angular, and Azure, and professional experience delivering production features in a healthcare technology environment. Known for writing clean, reliable code, collaborating effectively with cross-functional teams, and learning new technologies quickly. Looking to contribute to high-impact engineering work while continuing to grow as a full-stack developer.

Experience

CSS **October 2025 - Present**

Software Engineer 1

Remote

- Acting as the lead point of contact for a new high-visibility project, managing technical discussions, clarifying requirements, and driving feature delivery across teams.
- Developed and maintained full-stack features using .NET/C#, Angular, improving performance and usability for core healthcare platforms.

CSS

April 2024 - October 2025

Associate Software Engineer

Remote

- Implemented enhancements and bug fixes across 65 different .NET APIs and Angular front-end modules, contributing directly to production deployments.
- Participated in agile ceremonies, code reviews, and architecture discussions, steadily taking on larger feature work as responsibilities increased.

CSS

March 2022 - April 2024

Engineering Intern

Remote

- Designed and executed manual test plans for healthcare software, helping identify critical defects before release and improving software quality.
- Created test documentation and process improvements that helped speed up QA cycles and improve test coverage.

Education

Ursinus College

August 2020 - May 2024

Computer Science

Bachelor of Science

3.78

- CS Courses: Artificial Intelligence, Digital Music Processing, Advanced Software Design, Data Structures, Software Engineering
- Centennial Conference Academic Honor Roll, Fall 2021-Spring 2023
- Dean's List, Fall & Spring 2020-2024

Skills

Technical

.NET, C#, Angular, Typescript, Azure, SQL, Java, Python, Git

Interpersonal

Teambuilding, Communication, Active Listening, Problem-Solving
